### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art references, singly or in combination, teach or suggest magnetic recording medium having a magnetic layer with specific thickness and protrusions, a non-magnetic support with a specific thickness, and a backcoat layer with specific roughness as claimed. The terminal disclaimer filed December 29, 2004 has overcome the double patenting rejection set forth in the last office action.

The copending application 10/725,414 claims a magnetic recording medium comprising a magnetic layer having thickness and protrusions similar to that of the magnetic recording medium of the present claims. However, claims as amended, comprise two major differences from the '414 application claims: the '414 application claims do not recite the thickness of the non-magnetic support and the roughness of the backcoat layer. As shown in the specification, these physical features of the layers in the magnetic recording medium separately influence various aspects of the recording capacity of the recording medium.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.
